ITF Theme Day

'In-Well Communications' (data acquisition & transfer)

Tuesday 23rd June 2009 – Aberdeen Exhibition & Conference Centre (AECC)

FEATURING EXPERT SPEAKERS FROM:

Agenda

09.00-09.30	Coffee and Registration
09.30-09.50	Welcome by ITF who will explain the objectives of the day and how the ITF process works.
09.50-11.00	Invited Speakers will provide scene setting indication of the challenges which the industry faces: <i>Simon Sparke</i> , Sen. Well Services Engineer, Tullow Oil PLC <i>Steve Hudson</i> , Technology Manager, Expro - Wireless Well Solutions <i>Grant Affleck</i> , Business Development Manager, Technology – Global Drilling Services Weatherford
11.00-11.15	<i>Coffee Break</i>
11.15-12.30	Facilitated Workshop Session 1: A professional facilitator will guide discussions to define in more detail what issues and challenges face the industry
12.30-13.15	<i>Networking Lunch</i>
13.30-15.45	Facilitated Workshop Session 2: (Continued)
15.45-16.00	Feedback With closing comments

Operators across the globe require a full range of cost effective and reliable services that focus on well performance and operations. Oil and gas companies operate high value oil and gas wells that need services and products to measure, improve, control and process flow from these wells. A wide range of innovative technologies and services are needed to assist in the process of data acquisition and transfer.

The instrumentation of wells has to enhance a real-time data acquisition capability that enables engineers to manage the reservoir effectively and to optimise production. Having access to real-time data enables the early diagnosis of well production problems and allows remedial action to be taken promptly.

The ability to communicate with and control downhole hardware without the need for a control line is a significant enabling technology particularly if we can dispense with hard wire connections.

This gathering of experts will allow the industry to identify the main challenges in this area and will help start the process towards finding solutions.

The output from this workshop will lead to ITF issuing a global 'Call for Proposals', with up to 100% funding available for successful applications.

Who Should Attend?

The theme day is a limited attendance meeting and an opportunity for experts from operators, major service companies, SMEs, and research and academic organisations to sample the ITF process at work and to be involved in the process which encourages interaction between industry end users and the technology development community both locally and globally.

ITF is seeking delegates who will make a valuable contribution to our discussions, hence ITF reserve the right to decline registration to any delegate application. The registration process will seek an indication of your relevant experience.

Our aim for the day is to engage with the industry to define the challenges and to use the ITF process to seek out innovative solutions to the benefit of the industry

The output of the day will identify technology needs and ITF will issue a global 'Call for Proposals', which can lead to up to 100% funding for successful applicants.

About ITF

ITF is an internationally recognised champion for technology innovation within the oil and gas industry, acting as a conduit between technology innovators and the industry. ITF is a 'not for profit' organisation owned by major global operators and service companies.

ITF's key objectives are to identify technology needs, foster innovation, and facilitate the development and implementation of new technologies.

The ITF industry led and demand driven process has been instrumental in the deployment of many key technologies into the oil and gas provinces around the world.

Registration Details

Delegate Fees:

ITF Members

No charge

ITF Members are required to pre-register by contacting Ashleigh Martin on +44 (0)1224 853409 or at a.martin@oil-itf.com

Non-members

£150.00 (excl VAT)

Exhibition Space:

Pop-Up

£250.00 (to include one delegate place)

For non-members to register or to reserve an exhibition space please pay here:

<http://www.oil-itf.com/payment/inwellcoms.html>

Cancellation Policy:

Cancellations may be submitted no later than one week before the event, with a 50% refund of booking fees. There is no refund for cancellations received after this date. Substitution of delegates can be made at any time. ITF reserves the right to cancel the seminar due to unforeseen circumstances. ITF is not liable for any expenses incurred by the delegate.
