HETS External Patch
 - OHM** – David Andreis
SWOP
 - University of Edinburgh** – Ian Main
COFFERS
 - Well Processing** – David Pinchin
SWIT
- 16.30-17.00 **Future Technology Focus:** ITF will explain how their facilitated process works to secure funding and the future technology challenges which our members are facing.

As part of ITF's 10th Anniversary celebrations at Offshore Europe, this free event will focus on the past, present and future technology challenges of the industry and how ITF's proven process is used to identify and deliver solutions to these challenges.

Delegates will have the chance to hear case study presentations from four technology developers who have had their technologies successfully implemented through support from ITF members.

The afternoon will conclude with ITF explaining how their facilitated process works to identify the technology needs of their members and how these needs are met by engaging with the development community to secure funding for the development and implementation of these game changing technologies.

ITF will also focus on the ongoing technology challenges which our members are facing and how these can be addressed.

'Funding Technologies for the Future'

Wednesday 9th September 2009, 15.00-17.00

Holiday Inn Express, Bridge of Don, Aberdeen

About ITF

ITF is an internationally recognised champion for technology innovation within the oil and gas industry, acting as a conduit between technology innovators and the industry. ITF is a 'not for profit' organisation owned by major global operators and service companies.

ITF's key objectives are to identify technology needs, foster innovation, and facilitate the development and implementation of new technologies.

The ITF industry led and demand driven process has been instrumental in the deployment of many key technologies into the oil and gas provinces around the world.

Who Should Attend

This event is free of charge and open to anyone from operators, major service companies, SME's, and research and academic organisations who wish to find out more about ITF and how we work to the benefit your industry.
