

'Reservoir Imaging in Challenging Environments (2)'

Thursday 26th November 2009 –Thistle Aberdeen Airport Hotel, Aberdeen

Subsurface imaging technology is attracting considerable attention, with specific focus especially in oil exploration to study of complex geological structures. ITF has already held a number of recent workshops both in the UK and US to engage with experts in this technology challenge area. This workshop will now bring together the results of those recent consultations with a view to review, refine, and ratify the findings before issuing an international Call for Proposals.

By bringing together a number of the industry's major operator and service company experts, this series of workshops has discussed and leveraged understanding of the technology which may provide the necessary improvement for imaging in these environments.

Challenges such as salt domes and overthrusts with severe lateral velocity variation, basalt imaging and deeper events are some of the key issues but these are by no means exhaustive and this workshop will allow us to review and refine the issues facing the industry.

This gathering of experts will allow the industry to ratify the main challenges in this area and will help the process to find solutions.

The output from this workshop will lead to ITF issuing a global 'Call for Proposals', with potentially up to 100% funding available for successful applications.

Agenda

08.30-09.00	Coffee and Registration
09.00-09.10	Preliminaries and Welcome by ITF who will explain the objectives of the day and how the ITF process works
09.10-09.40	ITF will provide an indication of challenges already identified from previous workshops
09.40-10.30	Facilitated Workshop Session 1: A professional facilitator will guide discussions to define in more detail what issues and challenges face the industry
10.30-11.00	<i>Coffee Break</i>
11.00-12.45	Facilitated Workshop Session 2: (Continued)
12.45-13.30	Networking Lunch

'Reservoir Imaging in Challenging Environments'

Thursday 26th November 2009 –Thistle Aberdeen Airport Hotel, Aberdeen

Who Should Attend?

The theme day is a limited attendance meeting and an opportunity for experts from operators, major service companies, SMEs, and research and academic organisations to sample the ITF process at work and to be involved in the process which encourages interaction between industry end users and the technology development community both locally and globally.

Our aim for the day is to engage with the industry to define the challenges and to use the ITF process to seek out innovative solutions to the benefit of the industry.

The output of the day will identify technology needs and ITF will issue a global 'Call for Proposals', which can lead to up to 100% funding for successful applicants.

About ITF

ITF is an internationally recognised champion for technology innovation within the oil and gas industry, acting as a conduit between technology innovators and the industry. ITF is a 'not for profit' organisation owned by major global operators and service companies.

ITF's key objectives are to identify technology needs, foster innovation, and facilitate the development and implementation of new technologies.

The ITF industry led and demand driven process has been instrumental in the deployment of many key technologies into the oil and gas provinces around the world.

Registration Details

Delegate Fees:

ITF Members **No charge**
<http://www.oil-itf.com/payment/REICE2.html>

Non-members **£75.00 (excl VAT)**

Exhibition Space:

Pop-up **£150.00 (zero VAT) includes one delegate space**

For non-members to register or to reserve an exhibition space, please pay here:

<http://www.oil-itf.com/payment/REICE2.html>

Please contact Ashleigh Martin on +44 (0)1224 853409 or at a.martin@oil-itf.com for further information on registering.

ITF is seeking delegates who will make a valuable contribution to our discussions, hence ITF reserve the right to decline registration to any delegate application. The registration process will seek an indication of your relevant experience.

Cancellation Policy:

Cancellations may be submitted no later than one week before the event, with a 50% refund of booking fees. There is no refund for cancellations received after this date. Substitution of delegates can be made at any time. ITF reserve the right to cancel the seminar due to unforeseen circumstances. ITF are not liable for any expenses incurred by the delegate.

Venue: Thistle Aberdeen Airport Hotel, Aberdeen
