

'Light Well Intervention Vessels (LWIV) for Well Abandonment'

Wednesday 1st July 2009 – Aberdeen Exhibition & Conference Centre (AECC)

Agenda

- 08.30-09.00 **Coffee and Registration**
- 09.00-10.30 **Welcome** by ITF who will explain the objectives of the day and how the ITF process works.
- Invited Speaker** will provide scene setting indication of the challenges which the industry faces:
- Oonagh Werngren*, Head of Technology, North Sea SPU, **BP**
- 10.30-10.50 **Coffee**
- 10.50-13.00 **Facilitated Workshop:**
- A professional facilitator will guide discussions to define in more detail what issues and challenges face the industry
- Feedback**
- With closing comments
- 13.00-14.00 **Networking Lunch**
- 14.00 Close

In line with the industry's focus on Well Abandonment, ITF is hosting a theme day to tackle the technology issues surrounding the use of Light Well Intervention Vessels (LWIV) for well abandonment.

By bringing together a number of the industry's major operator and service companies, this theme day is set to discuss and leverage understanding of the technology gaps that exist to perform rigless abandonment using Light Weight Intervention Vessels (LWIV).

Challenges such as removal of gauge cables, well head removal, verification of permanent barriers and annulus cementation are some of the key issues we understand but this is by no means exhaustive and this theme day will allow us to drill deeper down into the issues facing the industry in this sector.

This gathering of experts will allow the industry to identify the main challenges in this area and will help start the process towards finding solutions.

The output from this workshop will lead to ITF issuing a global 'Call for Proposals', with up to 100% funding available for successful

'Light Well Intervention Vessels (LWIV) for Well Abandonment'

Wednesday 1st July 2009 – Aberdeen Exhibition & Conference Centre (AECC)

Who Should Attend?

The theme day is a limited attendance meeting and an opportunity for experts from operators, major service companies, SMEs, and research and academic organisations to sample the ITF process at work and to be involved in the process which encourages interaction between industry end users and the technology development community both locally and globally.

Our aim for the day is to engage with the industry to define the challenges and to use the ITF process to seek out innovative solutions to the benefit of the industry

The output of the day will identify technology needs and ITF will issue a global 'Call for Proposals', which can lead to up to 100% funding for successful applicants.

About ITF

ITF is an internationally recognised champion for technology innovation within the oil and gas industry, acting as a conduit between technology innovators and the industry. ITF is a 'not for profit' organisation owned by major global operators and service companies.

ITF's key objectives are to identify technology needs, foster innovation, and facilitate the development and implementation of new technologies.

The ITF industry led and demand driven process has been instrumental in the deployment of many key technologies into the oil and gas provinces around the world.

Registration Details

Delegate Fees:

ITF Members **No charge**

ITF Members are required to pre-register by contacting Ashleigh Martin on +44 (0)1224 853409 or at a.martin@oil-itf.com

Non-members **No charge**

Pre-registration and application to attend is essential. Please use the following link:

<http://www.oil-itf.com/payment/wellabandonment.html>

ITF is seeking delegates who will make a valuable contribution to our discussions, hence ITF reserve the right to decline registration to any delegate application. The registration process will seek an indication of your relevant experience.
